

People

The key person in GroupSense is Dan Randow.

Dan Randow

[Dan Randow](#) is Director and Senior Consultant with GroupSense. Dan has been consulting and providing online collaboration services to organisations and elearning providers since 1998. He is also the Designer of [GroupServer](#).

Dan has 18 years of experience working with groups, organisations, learning, information systems, business and management. Prior to establishing GroupSense in 1998, Dan worked with [ComputerLand](#) in Christchurch, as Account Manager, Training Consultant and Development Team Leader.

Dan has also worked extensively in training and community sector roles. In 1998, Dan co-founded [Matapuna](#) with Kevin Makin. Dan is an advanced trainee in Sociometry which provides a theoretical and practical foundation for his work. Sociometry is part of the discipline of Psychodrama developed by JL Moreno. Sociometry provides a basis for analysing social systems and working with them to increase task accomplishment and participant satisfaction.
